IGBC GREEN SCHOOLS RATING

Build a Green & Healthy School for Tomorrow

Schools can gain **tremendous benefits** — **both tangible and intangible** — by going green. Get your campus assessed and certified under the IGBC Green Schools rating system.

TANGIBLE BENEFITS

Savings you can measure

Reduced water consumption

Reduced energy consumption

INTANGIBLE BENEFITS

A better place to learn and teach

Health & wellbeing of children, tutors & staff

Enhanced indoor air quality

Excellent daylighting

Benefits of Green & Healthy Schools

01

PERFORMANCE

Student's & building's performance

Fresh air, daylight and an improved indoor environment enhance the performance of students. Water efficiency, energy efficiency and post-occupancy monitoring improve building performance.

02

PEDAGOGY

Science & art of education

Eco-sensitivity is both a passion and a science. Children get sensitised to environmental aspects as part of everyday learning.

03

COMMUNITY

Help to educate the greater community

Knowledge sharing within the school helps in reaching out to parents and nearby communities.

04

RESPONSIBILITY

Towards the environment

Children learn to take responsibility for their own actions that concern the environment.
